

## GENERAL MOTORS CAR BRANDS

**BUICK**

Buick's product focus was built on a foundation of vehicle dependability. Its flagship LaCrosse and other models in the Buick lineup have been rated in the top 10 of J.D. Power's vehicle reliability study for more than 15 years. All Buick vehicles offer advanced safety and driver assistance features.

*Cadillac*

One of the first car brands in the world, Cadillac remains at the top of the luxury market within the U.S. The complete interchangeability of its precision parts lay the foundation for the modern mass production of automobiles and vastly simplifies the process of repairing Cadillac vehicles with collision damage.

**CHEVROLET**

Chevrolet has long been the volume leader in the G.M. family, producing mainstream vehicles to fit any budget. In North America they produce a wide range of vehicles, from subcompact cars to medium-duty commercial trucks with innovative technologies in safety, connectivity, and in-car entertainment.

**GMC**

Primarily focused on manufacturing utility vehicles rather than passenger sedans, GMC caters to a premium-based market and currently makes SUVs, pickup trucks, vans, and light-duty trucks, featuring bold visual looks, tailored forms, premium amenities, and advanced combustion systems.
